Candidates will have to complete the following prerequisite courses to join our program:

"These topics will be discussed with you in the interviews"

C and C++ fundamentals courses at https://www.sololearn.com/Courses/

Web Fundamentals at http://www.maharatech.gov.eg

Introduction to software testing concepts and techniques at https://maharatech.gov.eg//course/view.php?id=2&lang=en

ITI values that could be found here: http:// www.iti.gov.eg/Site/AboutUs

Software Testing Foundtions

GRADUATE PROFILES

- Software quality control (QC)/junior SW Tester/Junior Test Engineer with ISTQB-CTFL certificate

REQUIRED TOOLS

Codeblocks, sql server, netbeans, loadrunner, appium, selinuim

TRACK PRACTICES

Candidates are working together in one of the following Suggested Projects:
Manual Testing
Automation Testing (web, mobile , security , performance)

Track Name

OVERALL LEARNING JOURNEY OUTLINE

%20

Software development fundamentals
Object-Oriented Programming Using C++
Linux Operating System
Introduction to Software Engineering
Introduction to Web Technologies
Database Fundamentals
Operating system fundamentals workshop
Introduction to computer network fundamental

%50

Software Testing Fundamentals
Introduction to software testing concepts & Techniques
ISTQB Foundation Software Testing Certification
Effective Test case and bug report writing techniques
Implementing Testing Techniques through projects

%30

Web & Desktop Application Development & Testing
introduction to web technologies
SQL Fundamentals
Software Configuration management Fundamentals
Freelancing workshop
Java Programming

OTHER USEFUL INFORMATION

(Collaborative activities, Outstanding facilities, Remarkable Opportunities, Talents' Innovation, Industry partners ...etc.)
